- **CANCEL:** To change your mind.

- **MENU:** To bring up the main game sections (Magazine, Fashion Report, Profiles, Fashion Show and End Turn) and access new screens within each of those sections.

## OBJECT OF THE GAME

Turn scraps of fabric into a successful, world-renowned fashion empire! Design your own line of clothing, participate in fashion shows around the world and build your reputation as a designer. Manage your business, impress the judges and work with your models to build your success. You have to succeed in New York first, but then you'll take on the world – Paris, Milan, and even Tokyo! Win at fashion shows in the 3 major fashion capitals to win the game.

## HOW TO PLAY THE GAME

During the game, screens will pop up to guide you through gameplay and give you important information. To remove these pop-up screens, press SELECT.

### Main Menu

After the Tiger Games legal screen, the Main Menu will appear, with these options:

**NEW GAME:** To start a brand-new game

**LOAD GAME:** To continue a game you saved previously

**DESIGN CLOTHES:** To design clothing without playing the game

**OPTIONS:**

- Volume: Use the right and left arrows to move the slide bar for more or less volume
- Tutorials – On/Off: Use SELECT to toggle between On and Off
- Music – On/Off: Use SELECT to toggle between On and Off
- Back: To return to the Main Menu

## Starting a New Game

- 1) Select a slot to save your game to. If there are already 2 games saved, you have to save over one of them to start a new game.
- 2) Give yourself a memorable designer name, up to 9 characters long. Use the arrows to highlight letters (or go Back, or add a Space), then scroll down to DONE and press SELECT.
- 3) Give yourself a designer “look.” Use the arrows to scroll through the different characters, and SELECT one.
- 4) You’ll begin each game with \$1500 and a \$100 income to open your new fashion business.

# During the Game...

Throughout the game, you will move around 4 major screens, and the sub-screens within each. At the end of each turn, you will receive an “income” from clothing sales: the amount you earn will be based on how well your clothes are selling. The four main screens are Magazine, Fashion Report, Profiles, and Fashion Show, plus you can opt to End Turn:

## MAGAZINE

Use the Magazine to buy new fabrics, learn about judges and new models, and find out fashion and game tips. Use the arrows to highlight the topic you want and press SELECT to see what's there. When you're done, highlight BACK and press SELECT to go back to the cover.

## FASHION REPORT

Here's a quick look at where your business stands. How much cash do you have? How much money are you making? How many fabric sets do you own? What are your best sellers? This screen also shows your design skills: the more green you have in an area, the more you know about that piece of clothing...and, the more you know, the more patterns you have. You can get new patterns by designing clothes for shows or by choosing Research Designs under the End Turn Option.

## PROFILES

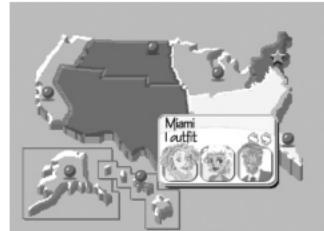

Use arrows to move through the lineup. Press SELECT to bring up a bio on each person. Highlight BACK and press SELECT to move to the previous person(s).

- All the models you have learned about through the Magazine will show up here. These are the models you can pick from to use in your show. You can use the Diva Points your models earn to give them confidence or increase their abilities. Just scroll down to the ability you want to change, then press the left and right arrows to change their status. There are 12 models in each game, but there are 20 total, so each game will be different!
- **Learn about the Judges:** Learn all about the 12 judges. The Judges range from Easy to Very Hard. As your experience grows, it will become harder to wow them, and it will be more important for you to show them what they like! You can learn their preferences by checking them out in the Magazine, or by finding out at the shows.

## FASHION SHOW

**Choose your Next Market:** Where will you show your line? You'll need to start small and work your way to the top. Start by choosing shows that cost less money to enter; they'll have easier judges too! Move around the country – then move around the globe!

Use the arrows to move around the map, and press SELECT to pick your next Market. You'll get more details about the

show. Press SELECT to enter the show, or choose BACK to go back to the map.

**Entering a Fashion Show:** Once you've entered a show, you will see the Design screen. From here you'll prepare for the show.

**1) Designing Clothes:** Now you can put together your exciting line of clothes! Press SELECT on the shirt icon to bring up your clothing options. Use the Up arrow to highlight the type of clothing you want to design first. You only need to complete one of the two themes in any show to keep the judges happy.

Then press SELECT to open the pattern options for that piece of clothing. Once you've selected the main type (for example, a skirt can be long, knee-length or mini), additional options will open. Use the arrow keys to scroll through each of these options and create your own style. Remember to keep in mind the judges' preferences as well as the show themes while you're designing.

**2) Completing Outfits:** To make a complete outfit, you need to choose a top, bottom, and shoes. If you choose a jacket you need a shirt underneath. To add accessories to your outfit, select the shoe icon on the left and choose accessories just as you created the clothes.

**3) Saving Outfits:** When you have created an outfit, the game will automatically store it in one of the 4 hanger icons on the right. The number of outfits you need for a show varies, so these icons will show you how many outfits you need (additional icons will be grayed out). To start a new outfit, highlight one of the empty hangers and press SELECT. You can always go back and modify

a previous outfit by pressing SELECT on the appropriate hanger icon. When you've completed all the outfits you need for the show, highlight DONE and press SELECT.

**4) Hire Your Models:** Your clothes come to life on your models, so pick them carefully! Each outfit you've created will appear on the left. Pick which model you want for each outfit. If you change your mind, press CANCEL and you can start again.

**5) Prep Your Models:** Pick your models' hairstyles and the music they will walk down the runway to. Your models will pick their moves based on what moves they know and their confidence level.

**6) Runway Competition:** This is it – the big day! Watch your models do their thing...and cross your fingers that they don't stumble!

**7) Judging & Rewards:** How did you and your models do? Did the judges like the fabrics and the quality? Judges award stars and half-stars, plus Diva Points

you can invest later. You need an average of 3 stars or more (over all your outfits) to be successful and open a market. If you don't open the market, you can try again when you've earned some more cash.

After each successful show, you'll review your line. Press SELECT to choose an item from the top. Then use the arrows to select a place to put it in your line. You can have only 12 items, so after a few shows you'll have to replace the old with the new. You can always keep your favorites, and you don't have to add all your new items to your line.

Remember to check how your clothes are selling by viewing your Fashion Report. Press SELECT on an open market in the Map to see the specifics.

## **“DESIGN CLOTHES”**

There is so much you can do with this design program! Selecting this option from the Main Menu allows you to design the clothes you want without playing the game. No rules and no judges. You can save up to 4 outfits here. The game will automatically save them in the hanger icons.

## **END OF TURN**

Your turn ends when a Fashion Show is over. A successful show will increase your income, but whatever your income is, you'll earn it now. Then you can start a new turn. Head back to the Magazine to check for new stuff, or head to the Map to select a new show.

You can also choose to End Your Turn at any time. You might want to choose this option to take a quick break from the shows and get more cash, or to up your design skills. When you choose this option, you'll have 4 choices:

**Enter a Fashion Show:** This will take you to the Map.

**Manage Your Business:** Managing your books for a turn will earn you income, but don't do it too often or your market sales will stagger.

**Research New Designs:** It will cost you some cash, but this is a quick way to gain access to new patterns in the area of your choice. Select which pattern you want to increase your skill in, and then press SELECT.

**Save and Quit:** Select this option to save your game and return to the main menu.

## GAME OVER and SUMMARY OF ACCOMPLISHMENTS

When you've won rave reviews at the 3 major fashion shows, the game ends. How many turns did it take you to become an "overnight success"? What did the Judges say? What's your fashion world reputation? How much money have you made?

When you've reviewed your accomplishments, highlight done press SELECT to exit. The game will back to Main Menu options.

**Note:** The game will shut off automatically after 10 minutes of non-use. The game

will be saved automatically during auto shutdown. The Game Console will then need to be turned OFF and ON again to continue play. You may start a NEW GAME or LOAD a saved game.

## HOW TO SAVE A GAME

Your game saves automatically while you play. You can save 2 games in the unit at the same time: this means that two different players can use the game, at different times, each playing the game she saved.

To review your score from the last game you played, select LOAD from the Main Menu when you turn the game on. Highlight the game you want and press SELECT.

## TROUBLESHOOTING

If you do not see the legal screens and then the main title screen after turning the TV and Game Console on:

**Check Plugs and Jacks** – Make sure that the video and audio plugs are inserted into the correct jacks on your TV, VCR or DVD player.

**Check Batteries** – Make sure the batteries in the Game Console and the Game Remote are fresh and properly installed.

**Check TV Channel** – Your TV channel should be set to its auxiliary “gaming” channel. This is usually indicated as “AUX,” “AV” or “Video.” You may have to refer to your TV owner’s manual to determine this. To locate your auxiliary channel (usually one of the following channels: 2, 1, 0, 00, or 99), click down from channel 3 until “Line 1,” “Line 2,” “Video 1,” “Video 2,” “Front,” “AUX,” “AV” etc. appears on the screen. Then press the ON button on the [game unit]. If you are on the right channel, the game should come on. If this does not work, see if your TV remote has a button (labeled “Input,” “AUX,” “AV,” “Line,” “TV/Video,” or “Video”) that takes you to the correct channel. If your remote has one of these buttons, turn your TV to Channel 3 and then hit that button. Then press the ON button on the [game console]. The game should come on.

**Check VCR / DVD Player Connection** – Your VCR / DVD player should be set to “AUX,” “AV” or “Video.” You may have to refer to your VCR or DVD owner’s manual to determine this.

**No Picture** – Try putting a videotape/DVD in your VCR/DVD player, let it start to play, and then hit STOP. This may give you a blue screen background. Then click down to the auxiliary channel on your TV.

If you do not get a blue screen, see if your TV and/or VCR has a main menu with an option for a blue screen background. If you go into the main menu, you can usually change from “cable” to “video” and get a blue screen.

If you have an older TV, you may find a “hidden door” on the TV that has color, picture, horizontal, vertical, and antennae/cable buttons. If your TV does have these, press the antennae/cable button to get a blue screen.
